PROFESSIONAL SUMMARY

Cybersecurity professional specializing in Vulnerability Assessment and Penetration Testing (VAPT), Web Application Security, and Network Security. Hands-on experience across Linux and Windows environments conducting structured security assessments and identifying vulnerabilities aligned with OWASP Top 10, NIST, and SANS frameworks. Proficient with industry-standard penetration testing tools including Burp Suite, Nessus, Nmap, Wireshark, SQLMap, and Metasploit. Experienced in producing actionable, CVSS-based reports with clear remediation guidance across 5+ client engagements. Adept at security automation with Python and committed to ethical hacking and continuous security improvement.

WORK EXPERIENCE

Cryptus Cyber Security Pvt. Ltd. — Delhi, India

Cyber Security Analyst – VAPT & Network Security | November 2025 – Present

- **VAPT Across Web, API & Network:** Conducted hands-on VAPT across Web, API, and Network environments on **5+ client engagements**; identified and validated vulnerabilities including SQL Injection, XSS, IDOR, CSRF, and authentication flaws using Burp Suite, SQLMap, and Metasploit following OWASP Top 10 methodology.
- **Network Penetration Testing & Hardening:** Performed network infrastructure security assessments using Nmap, Wireshark, and Nessus across Linux and Windows environments; identified misconfigurations, open ports, and weak authentication mechanisms, delivering hardening recommendations aligned to NIST and SANS standards.
- **CVSS Reporting & PoC Documentation:** Produced structured penetration testing reports for client engagements with CVSS-based severity ratings, proof-of-concept (PoC) documentation, and remediation steps, translating technical findings into actionable guidance for technical teams and stakeholders.
- **Security Auditing & Compliance:** Assisted in scoping and executing security audits for client environments, eliminating false positives, verifying remediation patches, and assessing security posture per NIST and industry standards.

KEY PROJECTS

Browser Pentest Assistant — Python, FastAPI, PySide6, Chrome Extension (Manifest V3), SQLite |

github.com/shubham93-ops/BrowserPentestAssistant

- Built a full-stack web application security testing tool combining a Manifest V3 browser extension, FastAPI backend, and PySide6 desktop interface for real-time HTTP/HTTPS traffic interception, inspection, and security testing workflows.
- Developed testing modules for OWASP Top 10 vulnerability inspection (SQL Injection, XSS, IDOR, Clickjacking), header analysis (HSTS, CSP), and session/token validation.

GhostTrace — Android Security & Diagnostics (In Progress) — Python, PySide6, ADB, SQLite | github.com/shubham93-ops/GhostTrace

- Developing a modular Windows desktop application for Android device management, diagnostics, ADB-based device discovery, wireless debugging, and security auditing (AOSP architecture).
- Built with modular architecture, thread-safe state handling, and secure authentication incorporating PBKDF2-HMAC-SHA256 password hashing. QR-based pairing and screen-mirroring are currently in active refinement.

Web, API & Network Penetration Testing Lab — Burp Suite, Nessus, Nmap, SQLMap, Wireshark, Metasploit, DVWA

- Built a controlled offensive security lab using DVWA & OWASP Juice Shop for hands-on Web and API penetration testing; systematically tested SQLi, XSS, CSRF, IDOR, and API flaws using Burp Suite and Metasploit; documented PoC and remediation steps.
- Performed network reconnaissance and traffic analysis using Nmap, Wireshark, and Nessus on simulated targets; validated 15+ vulnerabilities and misconfigurations, authoring structured remediation recommendations.

EDUCATION

Compucom Institute of Information Technology — Jaipur, Rajasthan

Bachelor of Computer Applications (BCA) | 2022 – 2025

CERTIFICATIONS & TRAINING

- **Honeywell Cybersecurity Training** – Certificate of Recognition, **Grade A** | Honeywell & ICT Academy (with Palo Alto Networks) | Nov 2023
- **Cryptus Certified Ethical Hacker (CCEH)** – Cryptus Cyber Security Pvt. Ltd.
- **Web Application Penetration Tester (WAPT)** – Cryptus Cyber Security Pvt. Ltd.
- **Cryptus Certified Network Administrator (CCNA)** – Cryptus Cyber Security Pvt. Ltd.
- **Vulnerability Assessment & Penetration Testing (VAPT)** – Cryptus Cyber Security Pvt. Ltd.
- **Cryptus Certified API Testing** – Cryptus Cyber Security Pvt. Ltd.
- **Cryptus Certified Forensics Investigator (CCFI)** – Cryptus Cyber Security Pvt. Ltd.

TECHNICAL SKILLS

- **Penetration Testing Tools:** Burp Suite, Nessus, Nmap, SQLMap, Metasploit, Wireshark, Gobuster, Dirsearch, Nuclei, Amass, Postman, Kali Linux
- **Security Disciplines:** Web Application Security, VAPT, API Security, Network Security, OWASP Top 10, Security Auditing, System Hardening
- **Vulnerability Testing:** SQL Injection, XSS, IDOR, CSRF, Authentication & Authorization Testing, Business Logic Flaws, Security Misconfigurations
- **SIEM & Monitoring (Basic):** Splunk, Wazuh, OpenVAS, Log Analysis, Incident Triage
- **Programming & Scripting:** Python, Linux, Bash, FastAPI, SQLite, Git & GitHub, Networking (TCP/IP, DNS, HTTP/HTTPS)
- **Assessment Frameworks:** CVSS Scoring, PoC Documentation, Vulnerability Reporting, Security Hardening, NIST Guidelines, SANS Controls
